### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jeffrey Brill on November 21, 2005.

The application has been amended as follows:

1. (Amended) A method for providing security with respect to who provided digital data at what time, said method comprising the steps of:

performing a serially chained certification process including:

(a) forming a first interval certification at a first server including the server's identification, the start time of an interval chain in UTC Coordinated Universal Time, the start time of an interval in UTC Coordinated Universal Time, the stop time of the interval, a public key for the interval, a digital signature for the interval, signed by a previous interval's private key, and a digital signature for the interval, signed by the interval's private key;

(b) upon expiration of the first interval, destroying its private key;

(c) configuring a second server to request a cross-certification for a second interval so that the first server is effectively requested to provide independent proof of

the existence of the interval (and its public key) at a point in time witnessed by the first server;

(d) continuing steps (a), (b), and (c) for second, third, and following intervals so that intervals are cross-chained with other servers to form a widely witnessed, temporal web of signed intervals of time.

### ***Terminal Disclaimer***

The terminal disclaimer filed on 10/7/05 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of Application Number 09/844790 has been reviewed and is accepted. The terminal disclaimer has been recorded.
